The Story and Roots of Infotechistan

We help startups and small businesses grow by creating powerful websites and smart business systems that make daily work easier and faster. Our goal is to reduce manual work, improve business operations, and help businesses generate more customers and revenue through digital solutions.

2025

Establishment Year

Faridabad, Haryana, India

Headquarters

Our Mission

To empower startups and SMEs with high-performance web applications and automation tools that eliminate manual work, capture leads, and accelerate business growth.

Our Vision

To become a global leader in digital innovation by delivering transformative web applications that drive efficiency, unleash growth, and help businesses worldwide unlock their full digital potential.

Building Ideas That Transforms Businesses

When I started Infotechistan, my vision was clear, to create an IT consultancy that doesn't just deliver projects, but partners with clients for enduring success.

Every line of code we write and every strategy we design is rooted in solving real-world problems. With transparency, excellence, and relentless innovation, our team is dedicated to empowering your journey in the digital landscape.

Akash Verma
Founder, Infotechistan
